Title

ELECTIONS

Description

You are the head of the election committee in your village. Each Political party is associated with a unique number and the votes are represented as an integer array A. where each element contains the party number voted for by the villagers. For a party to win, they must have a majority of votes. our task is to find and return an integer value denoting the winning party's number. Return -1 if there is no party with a majority.

Note: If only one vote is there he is the winner.

Input Format:

input1: An integer value representing the number the number of voters

input2: An integer array A representing the votes of the voters.

output Format:

Return an integer value denoting the winning party's number. Return -1 there is no party with a majority

Example 1:

Input:

112223

Output:

2

Explanation:

As 2 got the most number of votes i.e 3.

Example 2:

Input:

6

121122

Output:

-1

Explanation:

2 Mar 2 Sept 1 S

9/27/24, 5:30 PM 3BR23EC177-Elections

As both the contestants got same votes there is no majority.

```
Source Code:
```

```
n=int(input())
 arr=list(map(int,input().split()))
d={}
if n==1:
                                          print(arr[0])
else:
                                         for i in arr:
                                                                                  if i not in d:
                                                                                                                             d[i]=1
                                                                                    else:
                                                                                                                             d[i]+=1
                                         x=sorted(d.items(),key=lambda x:x[1],reverse=true)
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            23EC, 38E23EC, 38E22EC, 38E22E
